## QA Testing Checklist — Manual Connectivity Verification

### Pre-Test Setup

- ☐ Open <https://e-deviser.vercel.app> in Chrome (desktop) + Safari (mobile)
- ☐ Clear browser cache and cookies
- ☐ Verify the login page renders (not blank)

### 1. Authentication Flow

| #   | Test                 | Account                      | Expected Result                     |  /  |
|-----|----------------------|------------------------------|-------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.1 | Login as Admin       | principal@gulf-academy.test  | Redirects to /admin/dashboard       |                                                                                                                                                                               |
| 1.2 | Login as Coordinator | curriculum@gulf-academy.test | Redirects to /coordinator/dashboard |                                                                                                                                                                               |

|     |                             |                                              |                                             |  |
|-----|-----------------------------|----------------------------------------------|---------------------------------------------|--|
| 1.3 | Login as Teacher            | anderson@gulf-academy.test                   | Redirects to /teacher/dashboard             |  |
| 1.4 | Login as Student            | student01@gulf-academy.test                  | Redirects to /student/dashboard             |  |
| 1.5 | Login as Parent             | parent01@gulf-academy.test                   | Redirects to /parent/dashboard              |  |
| 1.6 | Wrong password              | Any email + wrong                            | Shows "Invalid email or password" (generic) |  |
| 1.7 | Sign out                    | Any logged-in user                           | Returns to /login, cache cleared            |  |
| 1.8 | Cross-institution isolation | Login as Gulf admin, try accessing Noor data | No Noor data visible                        |  |

## 2. Admin Dashboard (login as principal@gulf-academy.test )

| #   | Test             | Expected Result                                                      | ✓/✗ |
|-----|------------------|----------------------------------------------------------------------|-----|
| 2.1 | Dashboard loads  | KPI cards show: Total Users, Active Courses, Avg Attainment, At Risk |     |
| 2.2 | Welcome Hero     | Shows "Good morning/afternoon/evening, Dr. Aisha Al-Mansoori"        |     |
| 2.3 | Users list       | Shows 51 users (Gulf Academy) with role badges                       |     |
| 2.4 | Programs list    | Shows at least 1 program                                             |     |
| 2.5 | Courses list     | Shows Math 7, ELA 7, Science 7                                       |     |
| 2.6 | Audit Log        | Shows recent actions (if any)                                        |     |
| 2.7 | Empty state      | Navigate to a list with no data → shows EmptyState component         |     |
| 2.8 | Dark mode toggle | Profile dropdown → Theme → Dark → UI switches to dark                |     |
| 2.9 | Language switch  | Switch to Arabic → UI flips RTL, labels in Arabic                    |     |

## 3. Coordinator Dashboard (login as curriculum@gulf-academy.test )

| #   | Test              | Expected Result                          | ✓/✗ |
|-----|-------------------|------------------------------------------|-----|
| 3.1 | Dashboard loads   | Welcome hero + KPI cards                 |     |
| 3.2 | Programs visible  | Can see programs for Gulf Academy        |     |
| 3.3 | PLO list          | Shows PLOs linked to the program         |     |
| 3.4 | Curriculum Matrix | PLO × Course grid renders                |     |
| 3.5 | CQI Action Plans  | List renders (may be empty → EmptyState) |     |
| 3.6 | PLO → ILO mapping | Can view outcome mappings                |     |

## 4. Teacher Dashboard (login as anderson@gulf-academy.test )

| # | Test | Expected Result | ✓/✗ |
|---|------|-----------------|-----|
|---|------|-----------------|-----|

|     |                    |                                                     |  |
|-----|--------------------|-----------------------------------------------------|--|
| 4.1 | Dashboard loads    | Welcome hero + course cards                         |  |
| 4.2 | Course visible     | Mathematics 7 appears in course list                |  |
| 4.3 | Assignments        | Shows 4+ assignments for Math 7                     |  |
| 4.4 | Grading queue      | Shows submissions awaiting grading (or empty state) |  |
| 4.5 | CLOs               | Shows CLOs for Math 7 with Bloom's badges           |  |
| 4.6 | Grade a submission | Open a submission → grade → save → evidence created |  |
| 4.7 | Student list       | Shows 10 enrolled students                          |  |

## 5. Student Dashboard (login as `student01@gulf-academy.test` )

| #    | Test              | Expected Result                                  | ✓/✗ |
|------|-------------------|--------------------------------------------------|-----|
| 5.1  | Dashboard loads   | Welcome hero with XP/Level/Streak chips          |     |
| 5.2  | Courses visible   | Shows enrolled courses                           |     |
| 5.3  | Assignments       | Shows assignments with due dates                 |     |
| 5.4  | XP display        | XP total matches, level badge shows              |     |
| 5.5  | Streak counter    | Shows current streak days                        |     |
| 5.6  | Leaderboard       | Shows ranked students (anonymized for opted-out) |     |
| 5.7  | Badges            | Shows earned badges with emojis                  |     |
| 5.8  | Habit heatmap     | Shows daily habit tracking grid                  |     |
| 5.9  | Journal           | Can view/create journal entries                  |     |
| 5.10 | Learning path     | Assignments ordered by Bloom's level             |     |
| 5.11 | Submit assignment | Can submit to an unlocked assignment             |     |

## 6. Parent Dashboard (login as `parent01@gulf-academy.test` )

| #   | Test                        | Expected Result                          | ✓/✗ |
|-----|-----------------------------|------------------------------------------|-----|
| 6.1 | Dashboard loads             | Welcome hero + linked student card       |     |
| 6.2 | Linked student visible      | Shows Yusuf Ahmadi as linked child       |     |
| 6.3 | Child progress              | Can view XP, attainment, recent activity |     |
| 6.4 | Notifications               | Notification feed renders                |     |
| 6.5 | No access to other students | Cannot see other students' data          |     |

## 7. Cross-Role Data Flow (Critical Paths)

| #   | Test                 | Steps                                                  | Expected Result                | ✓/✗ |
|-----|----------------------|--------------------------------------------------------|--------------------------------|-----|
| 7.1 | Grade → XP           | Teacher grades → Student XP increases by 15            | Check student XP before/after  |     |
| 7.2 | Grade → Attainment   | Teacher grades → CLO/PLO/ILO attainment updates        | Check outcome_attainment table |     |
| 7.3 | Grade → Notification | Teacher grades → Student gets notification             | Check notification bell        |     |
| 7.4 | Grade → Parent sees  | Teacher grades → Parent sees updated progress          | Login as parent, check child   |     |
| 7.5 | PLO → Teacher sees   | Coordinator creates PLO → Teacher can map CLO to it    | Check CLO mapping dialog       |     |
| 7.6 | Bonus XP             | Admin creates bonus event → Student gets multiplied XP | Create event, then submit      |     |

## 8. Realtime & Notifications

| #   | Test              | Expected Result                                       | ✓/✗ |
|-----|-------------------|-------------------------------------------------------|-----|
| 8.1 | Notification bell | Shows unread count badge                              |     |
| 8.2 | Bell popover      | Click bell → shows notification list grouped by date  |     |
| 8.3 | Mark as read      | Open popover → notifications marked as read           |     |
| 8.4 | Live update       | Insert notification in another tab → badge increments |     |

## 9. Gamification Engine

| #   | Test                | Account                     | Expected Result                                 | ✓/✗ |
|-----|---------------------|-----------------------------|-------------------------------------------------|-----|
| 9.1 | XP total matches    | student01@gulf-academy.test | XP display = SUM(xp_transactions)               |     |
| 9.2 | Level correct       | Any student                 | Level matches XP formula ( $50 \cdot N^{1.5}$ ) |     |
| 9.3 | Streak display      | Any student                 | Streak counter matches last_login_date chain    |     |
| 9.4 | Badge display       | High-perf student           | Shows 5+ badges                                 |     |
| 9.5 | Leaderboard privacy | Opted-out student           | Name anonymized for peers                       |     |

## 10. OBE (Outcome-Based Education)

| #    | Test                  | Expected Result                                                      | ✓/✗ |
|------|-----------------------|----------------------------------------------------------------------|-----|
| 10.1 | ILO → PLO → CLO chain | Admin can see ILOs, Coordinator PLOs, Teacher CLOs                   |     |
| 10.2 | Outcome mappings      | Weights sum to 100% per child-to-parent                              |     |
| 10.3 | Attainment levels     | Excellent ≥85%, Satisfactory 70-84%, Developing 50-69%, Not Yet <50% |     |
| 10.4 | Bloom's taxonomy      | Each CLO has exactly one Bloom's level badge                         |     |
| 10.5 | Prerequisite gates    | Locked assignments show lock icon when prereq not met                |     |

## 11. UI Consistency

| #    | Test              | Expected Result                                         | ✓/✗ |
|------|-------------------|---------------------------------------------------------|-----|
| 11.1 | Dark mode         | All surfaces use design tokens (no white-on-dark leaks) |     |
| 11.2 | RTL layout        | Arabic mode → sidebar/header flip correctly             |     |
| 11.3 | Gradient CTAs     | Brand gradient buttons have white text in both themes   |     |
| 11.4 | Empty states      | Every list shows EmptyState when data is empty          |     |
| 11.5 | Data tables       | Headers always visible (not transparent)                |     |
| 11.6 | Mobile responsive | Student dashboard works on 390×844 viewport             |     |

## 12. Security Checks

| #    | Test               | Expected Result                                               | ✓/✗ |
|------|--------------------|---------------------------------------------------------------|-----|
| 12.1 | RLS isolation      | Student can't see other institution's data                    |     |
| 12.2 | Parent boundary    | Unlinked parent can't access child data                       |     |
| 12.3 | Role escalation    | Student can't access /admin/* routes                          |     |
| 12.4 | Append-only tables | Evidence, audit_logs, xp_transactions can't be deleted via UI |     |

## 13. Edge Functions (Backend Connectivity)

| #    | Function       | Trigger                  | Expected Result                 | ✓/✗ |
|------|----------------|--------------------------|---------------------------------|-----|
| 13.1 | award-xp       | Student login/submission | XP transaction created          |     |
| 13.2 | process-streak | Student daily login      | Streak incremented              |     |
| 13.3 | check-badges   | After XP award           | Badge awarded if conditions met |     |

|      |                         |                              |                               |  |
|------|-------------------------|------------------------------|-------------------------------|--|
| 13.4 | chat-with-tutor         | Student opens AI tutor       | Conversation created          |  |
| 13.5 | generate-quiz-questions | Teacher creates quiz         | AI questions generated        |  |
| 13.6 | send-email-notification | Admin invites user           | Email sent via Resend         |  |
| 13.7 | process-onboarding      | New student completes wizard | Profile updated               |  |
| 13.8 | Attainment trigger      | Grade inserted               | Evidence + attainment cascade |  |
| 13.9 | Notification trigger    | Grade released               | Student notification created  |  |

## 14. Noor International — Bilingual Test

| #    | Test              | Account                             | Expected Result                | ✓/✗ |
|------|-------------------|-------------------------------------|--------------------------------|-----|
| 14.1 | Login             | principal@noor-international.test   | Dashboard loads                |     |
| 14.2 | Switch to Arabic  | Language toggle                     | Full RTL layout, Arabic labels |     |
| 14.3 | Student diversity | student01@noor-international.test   | Aarav Sharma dashboard         |     |
| 14.4 | 4 courses visible | Teacher kim@noor-international.test | Math 6 course                  |     |
| 14.5 | Different data    | Compare Gulf vs Noor dashboards     | Different KPI values           |     |

## Deployment Notes

### Edge Functions

The following edge functions have security fixes in the repo that need deployment:

```

npx supabase functions deploy award-xp
npx supabase functions deploy check-badges
npx supabase functions deploy process-streak
npx supabase functions deploy send-email-notification
npx supabase functions deploy calculate-attainment-rollup
npx supabase functions deploy ai-at-risk-prediction
npx supabase functions deploy ai-module-suggestion
npx supabase functions deploy check-login-rate
npx supabase functions deploy compute-at-risk-signals
npx supabase functions deploy compute-habit-correlations
npx supabase functions deploy notification-digest
npx supabase functions deploy streak-risk-cron
npx supabase functions deploy update-question-analytics
npx supabase functions deploy weekly-summary-cron

```

### Vercel Environment Variables Required

- `VITE_SUPABASE_URL` — Supabase project URL
  - `VITE_SUPABASE_ANON_KEY` — Supabase anon/publishable key
  - `VITE_SENTRY_DSN` — (optional) Sentry error tracking
- 

## Data Verification Summary

| Metric           | Gulf Academy | Noor International | Expected |
|------------------|--------------|--------------------|----------|
| Admins           | 1            | 1                  | ✓        |
| Coordinators     | 2            | 3                  | ✓        |
| Teachers         | 3            | 4                  | ✓        |
| Students         | 30           | 40                 | ✓        |
| Parents          | 15           | 20                 | ✓        |
| <b>Total</b>     | <b>51</b>    | <b>68</b>          | ✓        |
| Courses          | 3            | 4                  | ✓        |
| Assignments      | 4 per course | 4 per course       | ✓        |
| Attendance data  | 6 weeks      | 6 weeks            | ✓        |
| At-risk students | ~3 per class | ~3 per class       | ✓        |
