Per-Role Test Checklist

Open production URL → Login with each role → Verify the following:

ROLE	KEY PAGES TO TEST	WHAT TO VERIFY
Admin	Dashboard, Users, ILOs, Audit Log, Institution Settings	All widgets render, CRUD works, RLS scoped to institution
Coordinator	Dashboard, Programs, PLOs, CQI, Attainment, Accreditation	Program CRUD, PLO→ILO mappings, CQI dashboard, evidence packs
Teacher	Dashboard, Courses, CLOs, Assessments, Grades, Attendance	Grade entry → attainment rollup, AI feedback, course materials
Student	Dashboard, Courses, Assignments, XP, Leaderboard, Wellness	Submit work, view grades, badges, habits, mobile responsive
Parent	Dashboard, Child Progress, Grades, Attendance, Gamification	Linked child data visible, multi-child switch, teacher nudges

Automated Testing Commands

COMMAND	WHAT IT TESTS	TIME
<code>npm test</code>	755 files, 7,017 unit + property tests	~2 min
<code>npm run lint</code>	ESLint — 0 warnings required	~30s
<code>npx tsc --noEmit</code>	TypeScript type checking	~30s
<code>npm run audit -- --stage=security</code>	VITE allowlist, secret scan, zodResolver, edge function validation	~2s
<code>npm run audit -- --stage=rls</code>	186 tables × role RLS matrix	~1s
<code>npm run audit -- --stage=connectivity</code>	256 hooks + 12 cron endpoint check	~2s
<code>npm run audit -- --stage=e2e</code>	Playwright per-role critical paths	~10 min
<code>npm run i18n:check</code>	Arabic/English key parity	~10s
<code>npm run db:check-replay</code>	Migration replay order integrity	~5s
<code>npm run db:check-dup-names</code>	Duplicate migration name check	~5s
<code>npx playwright test</code>	Full browser-based E2E suite	~15 min

PostHog Dashboard Verification

Visit [PostHog Project 393668](#) and check:

DASHBOARD	WHAT TO VERIFY
Live Events	\$pageview, \$autocapture flowing; device_class + release_version super properties present
Session Recordings	Masked inputs, consent-gated, seed accounts tagged
Feature Flags	Flags evaluate correctly in production
Person Properties	role, institution_id, account_type (seed/real) on all users

Institution-Specific Testing

INSTITUTION	WHAT TO TEST	KEY DIFFERENTIATOR
Noor International School	Full workflow: admin → coordinator → teacher → student → parent	IB MYP regime, 68 users, all features active
Multi-Track Academy	Multi-regime setup: IB + IGCSE + QNSA programs	Demo for schools with multiple curricula
IB MYP Academy	IB-only bootstrap: activate users, create courses	Pure IB pipeline
IGCSE British School	IGCSE-only: grade boundaries, criterion engine	British curriculum grading
Qatar National School	QNSA accreditation: evidence packs, Arabic UI	Qatar market compliance
Demo University	Percent-based grading, basic OBE	Higher education demo

Deployment Impact

COMPONENT	IMPACT	ACTION REQUIRED
Runtime features	NONE — documentation + lint script only	NO
Migrations	2 hardening migrations (search_path + RLS)	APPLIED via MCP
Edge Functions	NONE changed	NO
Production action	VITE allowlist updated	DEPLOYED
Supabase Preview	Infrastructure limitation (491 migration timeout)	KNOWN ISSUE
